

MISSOURI'S NATIONAL

VETERANS MEMORIAL

PERRYVILLE, MO

Volunteer Opportunity

Missouri's National Veterans Memorial is a 501(c)(3) nonprofit and place of hope and healing for veterans, servicemen and women and their families. Founded in 2016, the Memorial is home to several permanent monuments in Perryville, Missouri. Our crowning achievement is a full-scale thank-you to veterans, completely identical to the Vietnam Veterans Memorial Wall on the National Mall in Washington D.C. With this Memorial, we are striving to honor all branches of the military and create sections representing each of America's conflicts. You can learn more about our Memorial by visiting MNVMFund.org

In addition to the monuments we have on campus, we operate a Welcome Center and gift shop. **We are currently in need of greeters and gift shop attendants.**

Yes, I want to be a part of the mission!

1. Call 573-605-6112
2. Email deannakluender@mnvm.com
3. Return the form with your CEC payment

Please tell us which areas you are interested in volunteering

SharedSolarSM Advantage

Citizens Electric with Wabash Valley Power Alliance (WVPA), our wholesale power provider, announces a new energy benefits offering **SharedSolar Advantage** that will launch by spring 2020. This new offering complements the existing SharedSolar program, an environmental benefits option that has been available to members since 2017. SharedSolar Advantage will allow members to pay a set price for the energy produced from a portion of the solar parks in Missouri, Illinois, and Indiana owned by WVPA. For \$19.99 per month, members can offset a portion of their bills from a 1,500-watt block of solar panels.

Energy credits will vary month-to-month depending on the amount of sunlight that is available. The electricity generated from a 1,500-watt block will replace an equal amount of kilowatt-hours from your bill. There may be some months that you receive more kilowatt-hour credits than you actually use. Those additional kilowatt-hour credits will be carried over to the next month. Think roll-over minutes on your cell phone bill.

SharedSolar Advantage will be available to all members including renters and businesses. For those members looking for a long-term option, CEC is offering the power generated by one block for a 5-year term for a prepayment of \$999.00. This long-term option saves the participant nearly \$200 over five years from the monthly plan. The long-term prepayment option also provides a locked rate for the 60-month term on the energy produced from the SharedSolar Advantage solar parks.

SharedSolar and SharedSolar Advantage participants support carbon-free, sustainable energy offered by WVPA and Citizens Electric. **If you have questions about SharedSolar Advantage, please call 877-876-3511 or visit us at CECMO.com.**
